

JORDAN A. MERCER

Software Engineer

Islamabad, Pakistan | jordan.mercer@email.com | +92 300 1234567 | linkedin.com/in/jordanmercer | github.com/jordanmercer

PROFESSIONAL SUMMARY

Detail-oriented software engineering student with hands-on experience building full-stack web applications and machine learning models. Skilled in Python, JavaScript, and the MERN stack, with a track record of shipping independent projects from concept to deployment. Seeking a software engineering internship to apply strong problem-solving and collaborative skills to real-world products.

EDUCATION

National University of Sciences and Technology (NUST), Islamabad

2024 – 2028

BS Computer Science | CGPA: 3.8 / 4.0

- Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Computer Networks
- Member, NUST Competitive Programming Club

TECHNICAL SKILLS

- Languages: Python, C++, JavaScript, SQL
- Web Development: React, Node.js, Express, REST APIs, HTML/CSS
- Data & ML: Pandas, Scikit-learn, NumPy, basic NLP pipelines
- Tools & Platforms: Git/GitHub, VS Code, Vercel, Railway, Oracle PL/SQL, Linux

PROJECTS

MuseForge — AI-Powered Creative Portfolio Builder

2026

React, Node.js/Express, Groq API | github.com/jordanmercer/museforge

- Built an end-to-end app that converts a user's CV into a polished, exportable HTML portfolio using LLM-generated content
- Deployed frontend on Vercel and backend on Railway; implemented rate limiting, input validation, and CORS hardening
- Designed a two-column SaaS-style landing page and refined UX based on iterative user feedback

Campus Opportunity Aggregator

2025

MERN Stack, Oracle PL/SQL

- Developed a platform aggregating internship and event listings from multiple campus sources into a single searchable feed
- Designed normalized database schema in Oracle PL/SQL to support fast filtering and search

Dysarthria Detection System

2025

Python, Librosa, Scikit-learn

- Built a classifier to detect dysarthric speech patterns from audio features, achieving 87% validation accuracy
- Engineered acoustic features (MFCCs, jitter, shimmer) from raw audio using Librosa

EXPERIENCE

Freelance Software Developer

Jun 2025 – Present

Self-employed, Remote

- Designed and deployed a personal portfolio website with a custom dark theme, hosted on GitHub Pages
- Collaborated with peers on small-scale web app builds, handling both frontend UI and backend API design

CERTIFICATIONS

- IBM AI Builders Challenge — Participant, 2026
- Python for Data Science (Coursera)
- Full-Stack Web Development with MERN (Self-paced)

EXTRACURRICULAR ACTIVITIES

- Active competitive programmer — solves regularly on Codeforces and LeetCode
- Volunteer mentor, introductory coding workshops for first-year students
